PROJECTS

SIGN LANGUAGE TRANSLATOR

Python - openCV, mediapipe

- A Sign Language Translator is a technology that aims to bridge the communication gap between individuals who use sign language and those who may not understand sign language.
- It involves converting sign language gestures or signs into spoken or written language and vice versa.

MOVIE RECOMMENDATION SYSTEM

Python - numpy, pandas

- A Movie recommendation system aims to provide accurate movie recommendations to the user.
- A movie recommendation system, or a movie recommender system, is an ML-based approach to filtering or predicting the users' film preferences based on their past choices and behavior.

TIC-TAC-TOE

Python - pygame

- Tic tac toe Python is a very simple and interesting tic tac tow game using Python project we can use NumPy, pygame modules to divide the tic tac toe Python project into multiple steps.
- It keeps a parallel track of our game and the final step is to execute our entire program to help both the player play the game and record their victories too.
